

## Exam Tips

### Skills for Tackling MCQs

- 1 Process of Elimination – Correct Chance >33%**  
There are only three answers – always guess and don't leave any questions blank. (There is no penalty for incorrect answers.) By eliminating one wrong answer you increase your odds to 50% from 33%!
- 2 Time Management is Priority**  
On average, you have only 90 secs/MCQ for Level 1; 180secs/MCQ for Level 2 / 3. Sometimes guessing an answer is the most efficient technique if you are not confident in one particular topic
- 3 Always Transfer your Answer to your Answer Sheet!**  
It seems obvious, but do not mark your answer on the question paper and wait until the last minute to complete the answer sheet ... accidents can happen
